

Patient Safety Expert Paul Gluck, M.D. Joins OB Consult

FOR IMMEDIATE RELEASE

Contact: Maggie Finkelstein – 855.273.8737

PHILADELPHIA, PA, October 5, 2011 – Dr. Paul Gluck has joined OB Consult, providing OB-GYN-specific safety and risk management services.

Dr. Gluck is a nationally recognized patient safety expert. His passion in this area is evident from his significant leadership roles and work over the last 30 years to advance patient safety nationally and internationally.

Dr. Gluck has been involved in significant patient safety initiatives. He is immediate past chair of the National Patient Safety Foundation, one of its founding members, and currently on its Board of Governors. He is also a current member of the National Quality Forum's Expert Panel, which is developing a standardized taxonomy for medical error reporting in support of Patient Safety Organizations; and a past consultant to the U.S. Agency for Healthcare Research and Quality grant committees tasked with evaluating patient safety implementation simulation research proposals.

Dr. Gluck has been involved with the American College (Congress) of Obstetricians & Gynecologists for more than 30 years, and served as its Assistant Secretary and as a member of its Executive Council.

Dr. Gluck has received many awards over the years and has presented over 200 lectures, written five textbook chapters, produced two video education programs and published numerous articles primarily in the field of patient safety.

With OB Consult, Dr. Gluck will be providing his expertise to OB Consult clients to enhance patient safety for obstetricians, OB-GYN departments, and other healthcare professionals.

###

ABOUT OB CONSULT

OB Consult is a national OB safety and risk management company which provides comprehensive patient safety and risk management services to Ob-GYNs, Ob-GYN departments, hospitals and other health care professionals across the country. Our mission is to make Ob-GYN care for women safer, while at the same time reducing professional liability risk for OB-GYNs.

OB Consult's comprehensive services provide OB-GYN health care professionals education, tool and strategies to accomplish enhanced safety through evidence-based strategies, while also making a positive impact on liability risk. Services include OB-specific peer review services, OB-specific event and crisis management and OB-specific education for all members of the OB team.
